📁 PROJECTS

TuneWaves ⧉
TuneWaves isn't just a music platform, it's your gateway to a world of limitless audio exploration.
08/2023 – 08/2023
Features: GitHub ⧉
- Vast Music Library: Access an extensive collection of songs.
- Personal Playlists: Create your music Playlist.
- Seamless Playback: Enjoy uninterrupted music streaming with easy-to-use playback controls.
- Admin Panel: Manage, update, and create your music library effortlessly.
- Secure Authentication: Protect your data with robust user authentication.

Tech stack: React.js, Chakra-UI, CSS, Node.js, Express.js, MongoDB.
Responsibilities:
- I designed and implemented the Player Page, enabling users to play, pause, skip, and control volume, along with loop functionality.
- Developed the Favorite Page, allowing users to view and manage their marked favorite songs.

Project Team: A collaborative project of 4 members, completed within 5 days.

Money Mentor ⧉
Money Mentor is your go-to platform for all your financial needs. Specializing in a wide range of loan options tailored to your individual requirements, we've got you covered.
07/2023 – 07/2023
Features: GitHub ⧉
- Authentication: Securely manage your financial profile.
- Loan Eligibility Checker: Find out if you qualify for a loan in seconds.
- Loan Categories: Choose from various loan categories to suit your needs.
- Partner Banks: Select from our trusted network of partner banks.
- Loan Application: Easily apply for the loan you need.
- Backend Approval: Our efficient backend ensures quick approvals.

Responsibilities:
- I created the Loan Eligibility Checker, providing users with quick and accurate eligibility information.
- I implemented the Backend Approval process, ensuring smooth and efficient loan approval workflows.

Tech stack: React, Redux, CSS, Chakra-UI, JSON-Server, Node.js.

Project Team: A collaborative project of 5 members, completed within 5 days.
